Cargill Fly Control

Right Now® Minerals

Cargill offers a fly control product in 2 of their Right Now® Minerals: Emerald® and Onyx®. Altosid® IGR is an insect growth regulator (IGR) that passes through cattle and into the manure, where horn flies lay their eggs. It breaks the horn fly life cycle, preventing pupae from developing into biting adult flies. It does not harm any other beneficial insects such as dung beetles. Discount is limited to 10 in total per customer, offer valid until May 14th 2021. Terms and conditions apply.

Sharpe Spotlight

Every month we will shine a spotlight on one of our Sharpe Specialists to give us important info regarding anything from animals, agronomy, and more.

Wade Deaken: Beef Consultant

Wade and his family have a cash-crop farm just north of Hanover. Working with Sharpe Farm Supplies, he sells dairy feed, beef feed, and services accounts in Grey-Bruce. He recently joined the grain team as a marketer/originator and can help with any grain inquiries.
