

THIS MONTH ON THE FARM

See what is happening on the farm, in stores, and on the road with our Sharpe specialists.

Controlling Flies on Pasture This Summer

At Sharpe's we offer two approaches to fly control in cattle feed. Cargill Right Now Onyx and Emerald Minerals are both available with Altosid IGR (Insect Growth Regulator). Altosid is ingested by the cow and stops the growth of Horn Fly larvae.

What Is It About Spring Grass That Makes My Horse's Body Grumble?

For most horsemen, spring is a welcome season. Among other reasons, spring brings the green-up of pastures. While grass seems the most natural of feedstuffs for horses and ponies, it can stir up health concerns in susceptible individuals.

Guelph is Our Featured Store This Month

Each month we want to feature a different location and introduce you to some of the Sharpe specialists behind them.

Our Guelph store is on 7707 Mill road off Victoria Road. It was the first retail store in the Sharpe family and now has a wide variety of items. Stop in and say hello to Emily, Amy, and Krystal (left to right).

Planning & Preparing Your Garden For Spring

If you're eager to put on your gardening gloves and get out in the yard, you don't have to wait for the official arrival of spring. Start with this checklist as soon as weather permits, and you'll save more time later for planting seeds and starter plants and tending to this year's garden.
